About me

High school student and self-taught developer who learns mostly by building real projects. I build websites for small businesses and my own web app, RPForg. My knowledge is not yet deep in every area, but I learn fast, work independently and I am looking for a place where I can grow with an experienced team and a mentor.

Projects

Web development (VIPERNET) — websites for small businesses

- Built and redesigned several client websites, including live production sites
- Next.js, React, TypeScript and Tailwind CSS; scroll animations with GSAP
- Responsive layouts, working from client feedback and deploying to production (Vercel)

RPForg — AI tool for FiveM/GTA roleplay server developers (rpforg.co)

- React front-end on Vercel connected to a FastAPI + PostgreSQL back-end on Render
- Working with REST APIs, async requests and loading/error states in the UI
- Prepaid credit system with Stripe payments
- Integration with the Claude API for code and content generation

Skills

- Front-end: HTML5, CSS3, JavaScript (ES6+), TypeScript, React, Next.js, Tailwind CSS, GSAP
- Async & APIs: Promises, async/await, fetch, REST APIs
- Back-end: Python, FastAPI, PostgreSQL, Stripe
- Tools: Git/GitHub, Vercel, Render, Figma, AI coding tools (Claude Code)

Education

SU "Sv. Kliment Ohridski", Peshtera — 11th grade student

Languages

Bulgarian — native · English — B1/B2
